

4 orders of Nature

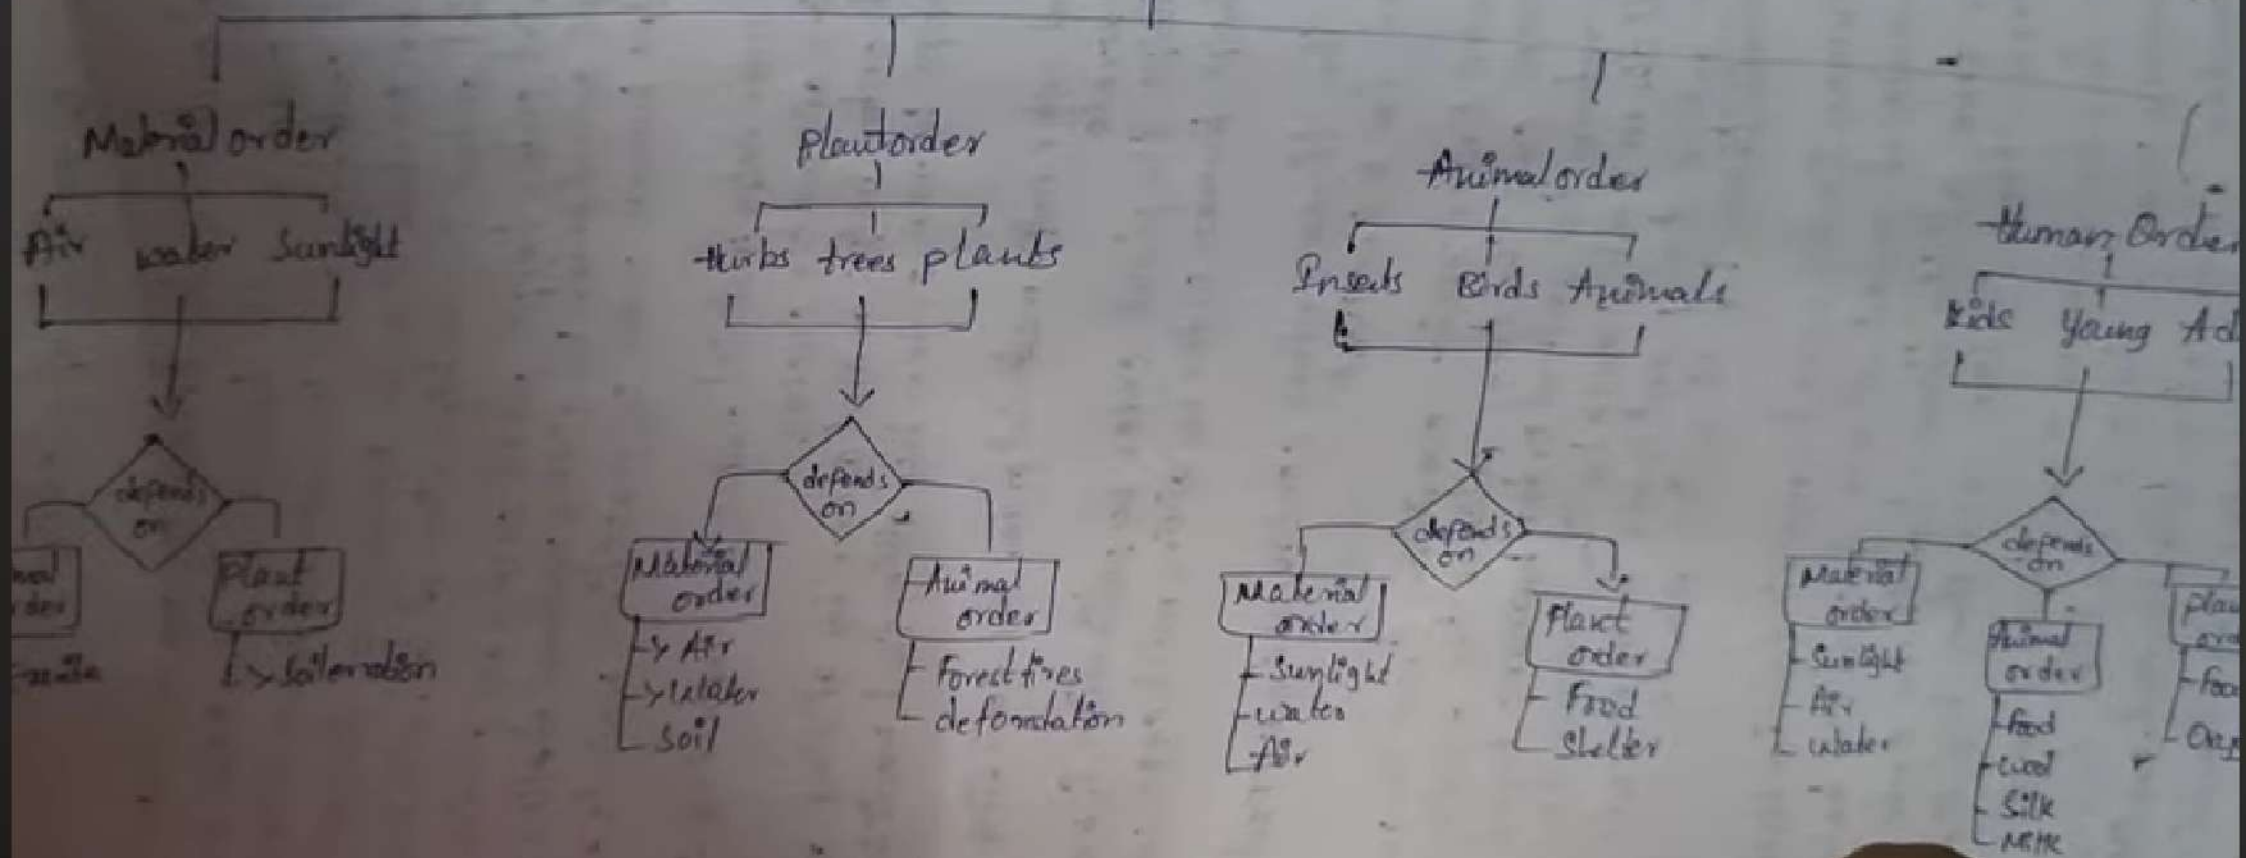

- Material order is also known as vastu avasta
- Plant order is also known as Uruksha avasta
- Animal Order is also known as jeeva avasta
- Human order is also known as Gnana avasta

- Material order is combination of soil, air, water, sunlight etc..
- Material order helps plant order by giving soil, water etc..
- It helps animal order by giving natural shelter, water, sunlight
- It helps human order by providing metals, energy & natural resources
- Plant order helps material order by improving soil fertility & balancing air water cycles.

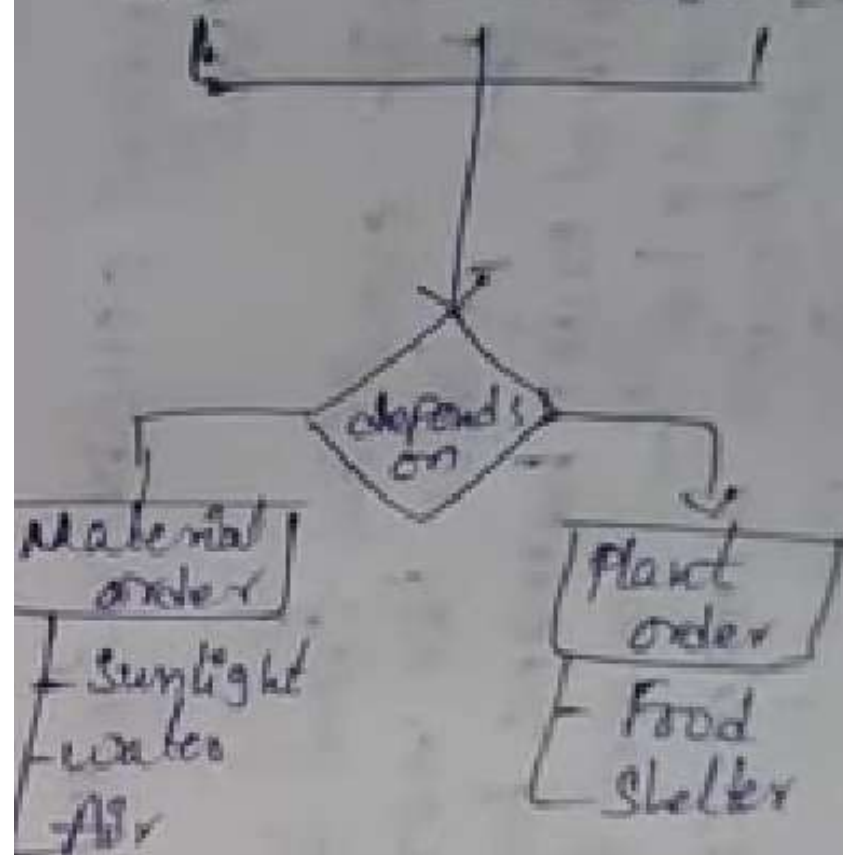

- Plant order helps material order by improving soil fertility & balancing air water cycles.
- Plant order helps animal order by giving oxygen, food, shelter
- It helps human order by giving food, medicine, wood, oxygen etc.
- Animal order helps material order by enriching soil through the excreta
- It helps the plant order by pollination & maintain the food chain
- It helps human order by giving milk, eggs, wool, etc.

- All the three orders continuously support & help the order for a survival.
- Human Order receives everything from the nature in return humans cuts the trees pollutes the ~~rev~~ rivers
- In return for animal order humans hunt animals, eat kill them and ~~cause~~ be the reason for their extinction
- In return for plant order humans cuts the trees and pollutes them by throwing plastic
- Human Order creates maximum imbalance in nature because of greed misuse & careless behaviours
- For true, all the ~~three~~ other three orders are in co-ex means they support each other by living in balance
